Abstract

CONSOLIDATION - Highways Works - Drawing up agreements for road maintenance works - Procedure - Orders.

Public Works Department

G.O.Ms. No. 3347 Dated 11th August 1955
Read the following:

G.O.No.2607 P.W. dated 28th February 1940
From the Chief Engineer(Highways) No.37491 D2/51-5
dated 30-5-1953.

ORDER

In the circumstances stated the Government authorise the Chief Engineer(Highways) to note the estimate or schedule of rates to the nearest pie in any case against each item in the agreements drawn up for the annual road maintenance works of the Highways Department and to apply the percentage of tender premium or discount to the total value of the work to be done for arriving at the actual value of contract. They also authorise the Chief Engineer to price each item of the bills for work done under such contracts at the estimate or schedule rate to the nearest pie in each case, the percentage of premium or discount being applied to the total amount of the bills for determining the amounts payable to the contractors.

The Chief Engineer(Highways) is informed that as the estimate rates have to be accurate the rates should be to the nearest pie and that neither the individual items making up the estimate rate nor the final estimate rate should be allowed to be rounded.
